AEUED-D

1 February 1968

Dear Colleague:

The United States Dependents Schools, European Area, maintains more than sixty classes for physically and mentally handicapped children. Since the majority of these students have parents serving with the military, the children remain in USDESEA for a three year period, corresponding to the tour of the sponsor. When these families rotate to new duty stations, mostly located in the continental United States, it is important that they have information regarding educational facilities suitable for their children.

To this end this directory was developed and will be kept current, within the capabilities of this office. We hope that it will be useful to others also.

An expression of appreciation is extended to all those school systems which contributed so generously in making this directory possible.

DIRECTORY OF SPECIAL EDUCATION CLASSES

CONUS AND OVERSEAS

This directory is admittedly incomplete. It represents, however, the best available data pertaining to the location of special education classes located on or within commuting distance (30 miles) of most US military installations in the continental United States, Alaska, Hawaii, the Canal Zone, the Atlantic Area, the Pacific Area, and the European Area.

Information was requested from each State Department of Education and from other school authorities as deemed appropriate. This information was punched into data processing cards and the resulting printout was checked against the raw data sent from each state and against a military list of posts, camps, bases, stations, and ports.

Since this directory represents an initial effort it is hoped that military and school personnel who have an opportunity to use it will help to keep it up to date by sending corrections to:

Assistant Director, Guidance & Special Education
Directorate, USDESEA
